422 Central Avenue

Dunkirk, New York 14048

PH. (716) 366-1466 Fax (716) 366-0389

9/4/2015

Dear Customer,

***** Please note some options available for booking your pump maintenance. You may now book online through our website or e-mail: fadaleenterprises@gmail.com**

Continued recommendations from our distributors and manufacturers encourage an annual maintenance service on the sump pump you have purchased from us (once per year). This service is very inexpensive and will extend the life of your sump pump significantly. Most sump pump servicing will take no more than 30 minutes and will cost \$95.00 plus tax. Additionally, the service to your sump pump will allow for a more **Green** and energy efficient cost savings on your electric bill.

Fadale Enterprises, Inc. has been the area's most successful waterproofing, drainage, and crawlspace encapsulation firm in Western New York providing customers with the newest design, installation, and service technology available. We even offer our very own waterproofing system, called Flow-Dry, which was featured in many local newspapers in 2009. Our offices are located in downtown Dunkirk, New York, with regular business hours (8am-4pm, Mon thru Fri) for your convenience. Additionally, all Fadale Enterprises, Inc. trucks are radio dispatched for fast, accurate service with an emergency 24-hour phone line to maintain our #1 status.

Please feel free to contact us anytime to schedule your service work. You may also call to ask questions or to pick your own dates for service work. Thank you for your continued business. Please visit us at our website: **www.sfadaleenterprises.com**
